

ABA: 583564

SPa ventral

This fluorescence microscopy image shows a SPa ventral structure. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant shows a bright, curved, yellowish-green structure, likely a developing embryo or a specific tissue layer. The rest of the image, including the top-right, bottom-left, and bottom-right quadrants, is dark blue, indicating a low level of fluorescence or a different tissue type. The text 'ABA: 583564' is in the top-left corner, and 'SPa ventral' is in the bottom-left corner.
