

ABA:67978501

SCN

This image is a fluorescence micrograph of a brain section. The left hemisphere shows a bright blue fluorescent signal, likely representing ABA staining, with a prominent bright spot in the center. The right hemisphere shows a more uniform, dimmer blue signal. A vertical white line divides the image into two halves. The text 'ABA:67978501' is in the top left, and 'SCN' is in the bottom left.
