

ABA:67978686

OB anterior

A PET scan image showing two blue regions of activity in the brain, separated by a vertical line. The image is labeled 'ABA:67978686' at the top and 'OB anterior' at the bottom. The blue regions are located in the lower-middle part of the image, symmetrically placed on either side of the vertical line. The background is black, and there are white lines forming a crosshair.
