

ABA: 68148732

Cb lobe

The image displays a coronal brain scan with a blue overlay representing a specific region. A small, bright, multi-colored spot (yellow, orange, and red) is visible on the left side of the image, indicating a localized area of high intensity or activation. The rest of the brain area shown is in a uniform blue color. A white crosshair is overlaid on the image, with a vertical line passing through the center and a horizontal line passing through the middle of the brain area.
