

ABA: 68148733

VA/VL

A coronal brain scan image, likely from a PET or SPECT study, showing a cross-section of the brain. The image is predominantly black, with a large, irregularly shaped blue region on the left side (patient's right hemisphere). This blue region represents an area of increased radiotracer uptake. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the middle of the image. The text 'ABA: 68148733' is located in the top left corner, and 'VA/VL' is in the bottom left corner.
