

ABA:68162205

Pn

The image shows a coronal cross-section of a human brain. The brain tissue is represented in a solid blue color against a black background. A thin, bright white line is visible on the right side of the brain, indicating a specific area of interest or a lesion. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:68162205' is located in the top-left quadrant, and 'Pn' is in the bottom-left quadrant.
