

ABA: 68341728

Tg

The image displays a fluorescence microscopy scan of a biological specimen, likely a cell or tissue section. The specimen is represented by a blue, irregularly shaped area against a black background. Within this blue area, there are several distinct, brighter spots, indicating regions of higher fluorescence intensity. A vertical white line and a horizontal white line intersect at the center of the image, serving as a reference grid. The text 'ABA: 68341728' is located in the top-left corner, and the text 'Tg' is in the bottom-left corner.
