

ABA: 68410243

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a brain section with several bright spots of fluorescence, primarily in the upper and lower quadrants. The right half of the image is mostly dark, indicating a lack of fluorescence in that region. The text 'ABA: 68410243' is in the top left, and 'VMH' is in the bottom left.
