

ABA : 68446057

VPM/VPL

This is an axial PET scan of the brain. The image shows a cross-section of the brain with a central vertical line representing the midline. The brain tissue is primarily dark blue, indicating low metabolic activity. There are two distinct areas of increased metabolic activity, shown in lighter blue and green, located in the posterior parietal region of the left hemisphere. The label 'VPM/VPL' is positioned at the bottom left of the image, corresponding to these areas. The text 'ABA : 68446057' is located at the top left of the image.
