Pir

A blue, symmetrical, butterfly-like shape is centered on a black background. The shape has two main lobes, one on the left and one on the right, separated by a narrow vertical gap. Each lobe has a rounded, slightly irregular edge. A white crosshair, consisting of a vertical line and a horizontal line, is superimposed over the shape, intersecting at its center. The vertical line extends from the top of the image to the bottom, and the horizontal line extends from the left edge to the right edge.
