

ABA: 68545003

VMH

The image displays a coronal section of a brain scan. A vertical white line runs down the center, representing the midline. A horizontal white line crosses the image, indicating the level of the ventral medial hypothalamus (VMH). The left hemisphere (viewer's left) shows a blue highlighted region, which is the area of interest. This region contains several small, bright spots, suggesting areas of increased activity or signal. The right hemisphere (viewer's right) is mostly dark, indicating no significant signal. The text 'ABA: 68545003' is located in the top left corner, and 'VMH' is located in the bottom left corner.
