

ABA: 68545723

CPu medial

A medial view of a brain hemisphere, likely from a rodent, showing ABA values. The image is divided into four quadrants by a vertical and a horizontal white line. The left hemisphere shows several clusters of high ABA values, indicated by yellow and red colors, primarily in the anterior and lateral regions. The right hemisphere is mostly blue, indicating low ABA values. The bottom-left quadrant shows a small cluster of high ABA values, indicated by yellow and red colors, in the posterior region.
