

ABA: 68744582

SCN

The image shows a coronal section of a brain, likely from a rodent, with a blue fluorescent signal. The signal is concentrated in the central region, specifically in the area labeled 'SCN' (Suprachiasmatic Nucleus). The signal appears as a bright blue, somewhat irregular shape against the dark background of the brain tissue. The text 'ABA: 68744582' is visible in the top left corner, and 'SCN' is visible in the bottom left corner. The image is divided into four quadrants by a vertical and a horizontal line.
