

ABA: 68844026

VMH

The image displays a coronal section of a brain with a blue fluorescent signal. The signal is concentrated in the ventral medial hypothalamus (VMH) region, which is highlighted by a vertical white line. The signal intensity is higher in the left hemisphere (viewer's left) and lower in the right hemisphere (viewer's right). A horizontal white line is also present, intersecting the vertical line at the level of the VMH. The text 'ABA: 68844026' is located in the top left corner, and 'VMH' is located in the bottom left corner.
