

ABA: 68919842

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into two main regions by a vertical white line. The left region shows a complex pattern of blue and yellow-green fluorescence, indicating the presence of a specific marker. The right region is predominantly dark blue, suggesting a different level of fluorescence or a different tissue type. A horizontal white line intersects the vertical one, creating a crosshair. The text 'ABA: 68919842' is in the top left, and 'VMH' is in the bottom left.
