

ABA: 69028468

SPa ventral

The image displays two blue brain hemispheres against a black background. A vertical white line divides the two hemispheres. A horizontal white line crosses both hemispheres near the bottom. The left hemisphere contains several bright, localized spots of light blue, indicating specific areas of interest or activity. The right hemisphere is a uniform, solid blue color. The text 'ABA: 69028468' is located at the top left, and 'SPa ventral' is at the bottom left.
