

ABA: 69134169

CA1

The image displays a brain scan, likely an fMRI or PET scan, showing a cross-section of a brain. The brain is represented by a blue, textured area against a black background. A white grid is overlaid on the image, with a vertical line and a horizontal line intersecting. The text 'ABA: 69134169' is located in the top left corner, and 'CA1' is in the bottom left corner. The brain scan shows various regions of interest, with some areas appearing brighter than others, suggesting different levels of activity or blood flow. The grid lines are positioned to divide the brain into four quadrants, with the intersection point located near the center of the brain.
