CA2/CA3

A fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 regions. The image is a grayscale micrograph with a white grid overlay. The grid consists of a vertical line on the left, a vertical line on the right, and a horizontal line across the middle. The CA2/CA3 regions are highlighted in a bright, glowing yellow-green color, forming a large, irregular shape that covers most of the image. The background is dark, and there are some faint, scattered spots of light. The text "ABA : 69352694" is located in the top left corner, and "CA2/CA3" is located in the bottom left corner.
