

ABA: 69352834

Arc

The image displays a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. A vertical line runs through the center of the image. The brain tissue is represented by blue areas, while a localized region of high activity (yellow/orange) is visible at the bottom center, indicating a focal point of interest. The text 'ABA: 69352834' is located in the top left corner, and 'Arc' is located in the bottom left corner.
