

ABA: 69407582

VMH

This image shows a coronal section of a brain with a blue fluorescent signal. The signal is concentrated in the left hemisphere, specifically in the medial prefrontal cortex area, which is labeled as VMH. The right hemisphere shows a much weaker signal. A vertical white line divides the image into two halves, and a horizontal white line is positioned below the brain section. The text 'ABA: 69407582' is in the top left, and 'VMH' is in the bottom left.
