

ABA: 69549669

LH

This is an axial brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly blue, indicating low metabolic activity. A single, small, bright yellow-green spot is visible in the upper-left quadrant, representing a focal area of increased activity. The brain is divided into two hemispheres by a vertical line, and a horizontal line crosses the middle. The label 'LH' is in the bottom-left corner, and 'ABA: 69549669' is in the top-left corner.
