

ABA: 69736022

SCN

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a bright blue, textured area representing the SCN (Suprachiasmatic Nucleus). The right half shows a solid, uniform blue area representing the ABA (Anterior Basal Amygdala). The labels 'ABA: 69736022' and 'SCN' are positioned in the top-left and bottom-left corners, respectively.
