

ABA: 69838623

VA/VL

A coronal brain scan image, likely an MRI, showing a cross-section of the brain. The image is predominantly black, with a large, irregularly shaped blue region in the center, representing a specific area of interest or a lesion. The blue region is roughly circular but has a vertical indentation in the middle, resembling a dumbbell shape. A white crosshair is overlaid on the image, with a vertical line passing through the center of the blue region and a horizontal line passing through the middle of the brain. The text 'ABA: 69838623' is located in the top left corner, and 'VA/VL' is in the bottom left corner.
