

ABA: 69873576

IC

The image displays a coronal cross-section of a human brain. A prominent, localized area of high-intensity activation is visible in the left hemisphere, appearing as a bright yellow-green spot against a blue background. The rest of the brain is represented in a uniform blue color. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the level of the activation. The text 'ABA: 69873576' is located in the top left corner, and 'IC' is in the bottom left corner.
