

ABA:70194636

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into two main regions by a vertical white line. The left region shows a complex pattern of blue and cyan fluorescence, indicating the presence of a specific marker. The right region is mostly dark, suggesting a lack of fluorescence. A horizontal white line intersects the vertical one, creating a crosshair. The text 'ABA:70194636' is in the top left, and 'VMH' is in the bottom left.
