

ABA:70230843

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a brain section with several bright spots of fluorescence, primarily in the upper and lower left quadrants. The right half of the image is mostly dark, indicating a lack of fluorescence in that region. The text 'ABA:70230843' is in the top left corner, and 'CA1' is in the bottom left corner.
