

ABA:70231242

SPa ventral

The image displays two side-by-side brain scans, likely from a rodent, showing SPa ventral activity. The left scan shows a bright, elongated, and somewhat irregularly shaped region of high activity (yellow and white) in the ventral SPa area, while the right scan shows a more uniform, circular region of lower activity (blue). Both scans are overlaid with a white crosshair grid. The text 'ABA:70231242' is visible in the top left corner, and 'SPa ventral' is visible in the bottom left corner.
