

ABA:70231303

CA1

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows a coronal slice with a central dark vertical structure, possibly the brainstem or a blood vessel. The surrounding tissue is stained with a blue fluorescent dye, which appears to be concentrated in the outer layers of the brain, particularly in the CA1 region. The image is divided into four quadrants by a horizontal and a vertical white line. The text 'ABA:70231303' is in the top left, and 'CA1' is in the bottom left.
