

ABA:70231845

DM

This image shows a fluorescence micrograph of a brain section. The brain tissue is stained with a blue fluorescent marker, likely DAPI, which highlights the nuclei of cells. The staining is distributed throughout the brain, with some areas showing higher intensity. A vertical white line runs down the center of the image, and a horizontal white line runs across the middle, intersecting at the center. The text 'ABA:70231845' is located in the top left corner, and 'DM' is located in the bottom left corner.
