

ABA:70278045

OB anterior

This image is a fluorescence micrograph of a brain section. It features two distinct clusters of signal. The cluster on the left is more intense, showing a mix of blue and yellow-green, while the cluster on the right is primarily blue. A horizontal white line and a vertical white line intersect at the center of the image, likely representing the midline and a reference plane. The text 'ABA:70278045' is in the top left, and 'OB anterior' is in the bottom left.
