

ABA:70300433

CA2/CA3

This is a fluorescence micrograph of a brain section, specifically the CA2/CA3 region. The image shows a blue-stained area representing the CA2/CA3 region, with a central dark vertical line indicating a sulcus or fissure. The staining is labeled as ABA:70300433. The image is divided into four quadrants by a horizontal and a vertical white line.
