

ABA:70436744

DG

This is an axial PET scan of a human brain. The image shows a cross-section of the brain with a color scale where blue represents low metabolic activity and red/yellow represents high metabolic activity. Two distinct areas of high activity are visible in the striatum, one on each side of the midline. A white crosshair is centered on the image, with the vertical line passing through the hyperactive regions. The text 'ABA:70436744' is in the top left and 'DG' is in the bottom left.
