A anterior

The image shows an anterior view of a human skull. A large, irregularly shaped area on the left side of the image (corresponding to the patient's right side) is shaded in a solid blue color. This shaded area covers the frontal bone, part of the parietal bone, and the nasal bone. The rest of the skull, including the orbits, maxilla, and mandible, is shown in a light gray or white color against a black background. A vertical white line runs down the center of the image, and a horizontal white line runs across the middle, intersecting at the center of the skull.
