

ABA:70634236

VA/VL

This is a brain PET scan image showing a cross-section of the brain. The image is overlaid with a white grid. The text 'ABA:70634236' is in the top left and 'VA/VL' is in the bottom left. The image shows a color scale from blue to yellow, indicating the intensity of the PET signal. The central region of the brain, including the basal ganglia and thalamus, shows higher intensity (yellow) compared to the surrounding cortical areas (blue). There is also a small, isolated area of higher intensity in the left hemisphere (viewer's right).
