

ABA:70743878

Pn

A blue-toned brain scan image, likely a PET or SPECT scan, showing a coronal cross-section of a human brain. The image is centered on a vertical white line, with a horizontal white line intersecting it. The brain tissue is represented by various shades of blue, with a prominent, bright blue area at the bottom center, possibly indicating a region of high metabolic activity or a lesion. The text 'ABA:70743878' is located in the top left corner, and 'Pn' is in the bottom left corner.
