

ABA: 70919274

SCN

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a bright blue, irregularly shaped region, likely representing the SCN (Suprachiasmatic Nucleus). The right half shows a solid, uniform blue region, likely representing the ABA (Anterior Basal Amygdala). The text 'ABA: 70919274' is located in the top left corner, and 'SCN' is located in the bottom left corner.
