Cb lobe

The image displays a brain scan with a blue highlighted region, likely representing a specific anatomical area or functional zone. The highlighted area is located in the lower-left quadrant of the image, corresponding to the 'Cb lobe' label. The overall shape of the highlighted region is somewhat irregular, with a central vertical indentation. The background is black, and the highlighted area is a solid blue color. A small, bright, multi-colored spot (yellow, orange, and red) is visible near the top-left corner of the blue region, possibly indicating a point of interest or a specific measurement.
