

ABA:71022738

CA1

The image displays a cross-sectional view of a brain, likely from a rodent, with a central region highlighted in blue. This blue area is concentrated in the midline, possibly representing the corpus callosum or a specific brain structure. The rest of the brain tissue is shown in a dark, almost black, color. A white crosshair is overlaid on the image, with a vertical line passing through the center of the blue region and a horizontal line intersecting it. The text 'ABA:71022738' is located in the top left corner, and 'CA1' is in the bottom left corner.
