

ABA:71064081

ventral S

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows two bright, curved structures, possibly representing the hippocampus or a similar region, which are highlighted in yellow and green against a dark blue background. The structures are symmetrically positioned on either side of a central vertical line. A horizontal white line crosses the middle of the image, and a vertical white line runs down the center, intersecting at the bottom. The text 'ABA:71064081' is located in the top left corner, and 'ventral S' is in the bottom left corner.
