

ABA:71211272

VMH

The image shows a coronal section of a rodent brain. A large, irregularly shaped region in the medial prefrontal cortex is highlighted in a solid blue color. This region is roughly symmetrical about the midline and extends laterally and anteriorly. A vertical white line runs through the center of the brain, and a horizontal white line runs across the middle, intersecting at the center of the blue region. The text 'ABA:71211272' is in the top left, and 'VMH' is in the bottom left.
