

ABA: 71280682

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into two main regions by a vertical white line. The left region shows a complex, branching pattern of bright blue and yellow fluorescence, indicating high levels of signal. The right region is a solid, uniform blue area, indicating a lower level of signal. A horizontal white line crosses the image, and a vertical white line runs down the center, intersecting at the boundary between the two regions. The text 'ABA: 71280682' is in the top left, and 'VMH' is in the bottom left.
