

ABA: 71283434

CA1

This image is a fluorescence microscopy scan of a brain section, likely a coronal slice. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a blue fluorescent signal, which is more intense in the upper-left quadrant and has several smaller spots of higher intensity. The right half of the image is mostly dark, indicating a lack of signal. The text 'ABA: 71283434' is in the top-left corner, and 'CA1' is in the bottom-left corner.
