VMH

This is a fluorescence microscopy image of a brain section, likely from a mouse, showing the ventral medial hypothalamus (VMH). The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a blue-stained brain section with a prominent bright blue spot in the upper left quadrant. The right half of the image shows a dark, mostly black brain section, indicating a lack of fluorescence. The text 'ABA: 71529995' is in the top left, and 'VMH' is in the bottom left.
