

ABA:71612181

DM

A blue brain scan image, possibly a PET or SPECT scan, showing a cross-section of a brain. The image is divided into four quadrants by a vertical line and a horizontal line. The text 'ABA:71612181' is located in the top left corner, and 'DM' is in the bottom left corner. The brain tissue is represented by a solid blue color, with some darker areas indicating lower activity or density. There are two small, bright blue spots near the top center, one on each side of the vertical line.
