

ABA: 71656894

CA1

This fluorescence microscopy image displays a brain section with two primary regions of interest. The left side, labeled 'CA1', shows a complex pattern of blue fluorescence with several distinct hotspots of higher intensity, indicated by yellow and red colors. The right side, labeled 'ABA: 71656894', is predominantly dark blue, suggesting a lower level of fluorescence. A white crosshair is overlaid on the image, with a vertical line separating the CA1 and ABA regions and a horizontal line passing through the center of the CA1 area.
