

ABA:71656904

SCN

The image shows a coronal section of a brain, likely from a rodent, with a blue highlighted region in the left hemisphere. The brain is centered on a vertical white line, which serves as a midline. A horizontal white line crosses the brain, likely representing the level of the section. The blue area is located in the upper-left quadrant of the image, corresponding to the left hemisphere of the brain. The text 'ABA:71656904' is in the top-left corner, and 'SCN' is in the bottom-left corner.
