

ABA:72077479

Arc

This is a false-color astronomical image of a galaxy, possibly a barred spiral galaxy. The central region is the brightest, appearing as a concentrated blue-white spot. A diffuse, irregular blue glow extends outwards from the center, representing the galaxy's light distribution. A white crosshair is superimposed on the image, with its intersection at the central bright spot. The text 'ABA:72077479' is located in the top-left corner, and the text 'Arc' is in the bottom-left corner.
