VMH

This image is a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue, cloud-like shape against a black background. A vertical white line and a horizontal white line intersect at the center of the brain. In the lower-left quadrant, there is a small, localized area of high intensity, appearing as a red and blue spot. This spot is labeled 'VMH' in the bottom-left corner. The text 'ABA:72081665' is located in the top-left corner.
