

ABA: 73617678

CA1

The image displays a brain scan, likely an MRI or PET scan, showing a cross-section of the brain. The scan is predominantly blue, with a central vertical line and a horizontal line intersecting. The text "ABA: 73617678" is located in the top left corner, and "CA1" is in the bottom left corner. The scan shows a large, dark, irregularly shaped area on the right side, which appears to be a lesion or a region of abnormality. The left side of the brain shows some internal structure, possibly the ventricles or sulci, though they are less distinct due to the low contrast.
