

ABA:74047715

OB anterior

A PET scan image of a brain, likely a coronal section. The image shows two distinct, vertically oriented areas of increased metabolic activity, represented by red and yellow colors, set against a blue background. A horizontal white line and a vertical white line intersect at the center of the image, forming a crosshair. The text 'ABA:74047715' is located in the top left corner, and 'OB anterior' is in the bottom left corner.
